Dear Client

The Regulation REACH (EC No 1907/2006) concerns the Registration, the Evaluation and the Authorization of chemicals and is entered into force, with full legal effect, on June the 1st 2008.

In accordance with the REACH dispositions any manufacturer or importer (from extra – EU Countries) of an article need to comply the requirements provided by Art.33 (1), Relevant to the obligation of communicating the possible presence of SVHC (SVHC – Substances of very high concern) within it.

With reference to this statement we inform you that the products supplied to you do not contain, above the quantities defined by the REACH, and substances from the Candidate List, as presented on the website of the Chemicals Agency (ECHA).

We will do our best to keep you updated in the future, if our products should contain any SVHC substances which is not currently in the above list.

Best Regards

Graham R Sayers. (Managing Director).
